Monitor Before Exposure

Are Stray Magnetic Fields From Your Rotary Motion Feedthroughs Affecting Your Process?

The Balanced Magnetic Circuit of Rigaku Rotary Motion Feedthroughs virtually eliminates feedthrough leakage magnetic fields that can affect your critical process!
Rigaku: No effect on monitor due to very low magnetic leakage! The Rigaku advantage of a balanced magnetic circuit!
Monitor affected by magnetic leakage field emanating from Competition’s feedthrough shaft
Monitor ruined by exposure to high magnetic leakage field from competition's feedthroughs.

Are stray magnetic fields from your rotary motion feedthroughs affecting your process?

The balanced magnetic circuit of Rigaku rotary motion feedthroughs virtually eliminates feedthrough leakage magnetic fields that can affect your critical process!
